PROPRIETOR AND MANAGER

LIST OF TREES, SHRUBS, VINES AND CHOICE EVERGREENS GROWING IN OUR PROVO PLANT

Also, Prices, Terms and Conditions
of Sales

"He who plants a tree, plants a hope."

The prices quoted in this booklet are for the large, thrifty, healthy plants. We believe in your getting value received for the money you spend with us.

We can furnish smaller plants, at a lower price, of most of this list, according to style of growth.

We have one of the best plants in the west, and will be pleased to have you visit it any time.

We have decided to run a "cash" business, enabling us to serve you better, as no time will be wasted hunting those who fail to pay.

The prices quoted, are for first-class stock, well packed, and delivered at the railroad here. You to pay the freight, express or parcel post charges. Any change from this plan must be agreed upon at the office. Agents cannot change this rule. We make special prices on large lots; forming purchasing clubs might save you money.

Landscape artists will find our place a help to them.

Phone B. H. BOWER, 161-W

INSTRUCTIONS FOR PLANTING

When shipment of trees comes to your place, remove all packing material, wet thoroughly, and burry roots in soil, leaning tops toward the south. Cover at least two feet above roots, and tread the soil to shut out the air.

Before planting, cut all bruised roots above the bruise, making clean cut, with slope if any, on the under side.

Dig hole large enough to admit all the roots without bending or crowding. Place fine surface dirt about the roots, fill hole half way, then add a bucket of water, let settle while you plant the others, then fill the hole to level, firm it with ball of foot, then add two inches loose earth.

Never put other than pulverized, well-rotted manure among the roots. It is better to place the mulch on top after the planting is done. These should need no water for two weeks.

Fall planting is perfectly safe, if care is taken to hill up earth around each plant, and add rough mulch on top.

If off the railroad or ordering small amount, your plants should be sent Parcel Post, for which please add 25c for postage. If you want to be certain of quick delivery of parcel, add 12c for special delivery, which makes first class mail of the parcel.

OUR PLANTS TRUE TO NAME

We exercise the greatest care to have you receive the plant you order, but through any cause, a mistake should occur, we will replace the plant at no cost to you.

In no case will we be responsible for a greater sum than the price you paid us for the tree.

We grow the best, and import the choicest, so we can furnish, according to your wants. Our plant is always open for your inspection, and we invite you to visit our place.
